B. S. PUTTASWAMY,
Commissioner of Labour and
3883 *Chief Inspector of Factories in Mysore.*

MYSORE STATE—DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, WEEK ENDED SEPTEMBER 13, 1951.

A total of 27 attacks with 39 deaths from Plague was returned from 11 villages in 7 taluks in 4 districts during the week against 48 attacks with 18 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Field reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 21 attacks with 7 deaths and 40 attacks with 18 deaths, respectively.

A total of 28 attacks with 7 deaths from Small-pox were reported from Mysore City and Mandya, Town and from the Taluks of Chintamani, Goribidnur and Honnali.

Seventy-four attacks with 35 deaths from Cholera were reported from Mysore City and from the towns of Anekal, Kankanhalli, Shimoga and from the taluks of Bangalore North, Bhadravati, Goribidnur, Holalkere, Harihar, Kanakanahalli, Krishnarajanagar, Magadi Mulbagal, Maddur, Nelamangala, Shikaripur and T.-Narasipur.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 224 (55 in hospitals) for 7 days representing a calculated death-rate of 14·7 (11·1 excluding hospital deaths) per mille of population (annual basis) as against 23·3 (16·7 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Typhoid, 1 under Other Fevers, 29 under Dysentery and Diarrhœa and 193 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 64 (28 in hospitals) for 5 days representing a calculated death-rate of 18·9 (10·6 excluding hospital deaths) per mille of population (annual basis) as against 20·9 (13·8 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were Small-pox 4, Malaria 1, Other Fevers 10, Dysentery and Diarrhœa 5 and All Other Causes 44. The reported mortality was very low.

There were 38 deaths (5 in hospitals) for 6 days from all causes in Kolar Gold Fields equivalent to a calculated death-rate of 14·2 (12·3 excluding hospital deaths) per mille of population (annual basis). Classified according to causes, deaths numbered 1 under Typhoid, 1 under Other Fevers, 6 under Dysentery and Diarrhœa and 30 under All Other Causes. The reported mortality was very low.

T. CHANDRASEKHARAIYA,
4117 *Director.*

OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY SERVICES IN MYSORE, BANGALORE.

(HEALTH OF LIVE-STOCK DURING AUGUST 1951.)

Notification dated 19th September 1951.

In their order of severity, outbreaks of Rinderpest, Blackquarter, Hæmorrhagic-septicæmia, Anthrax, Foot and Mouth, Sheep-pox, Ranikhet, Gastro-entritis, Contagious-goat pleuro-pneumonia and Rabies were encountered in the State during August 1951. Altogether 297 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 339 villages during the previous month. The number of outbreaks was highest in Tumkur, Chitaldrug and Mysore Districts, while Mandya, Chikmagalur and Hassan Districts were least affected. These diseases accounted for 1,582 attacks of which 756 succumbed. The departmental staff conducted 41,014 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

Four outbreaks of Rinderpest among cattle were registered in Sagar and Hosanagar Taluks accounting for 45 attacks, of which 9 succumbed. Prompt measures of control were undertaken by the Department to check its spread and 673 cattle in the infected villages and 2,235 cattle in 7 neighbouring villages were protected against this disease. The disease appeared to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 103 villages accounting for 7 deaths as against 93 villages accounting for 11 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 6,164 animals as against 5,573 animals during the previous month.

The rest of the live-stock remained free from diseases during the month, and fodder and water were generally available throughout the State.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.

9 (1) Horsegram is sown in Bangalore North and Devanhalli Taluks.

(2) Paddy is being transplanted in Bangalore North Taluk and Dodballapur Taluk.

(3) Paddy crop under Varthur tank is damaged on account of overflow of water.

(4) On account of recent rains standing crops such as Paddy, Sugarcane, Ragi, Avare, Togari, Til are improving.

(5) Tanks have received water. More rains are required for Ragi in Anekal taluk. Ragi crop in parts of Hoskote, Kasaba-2, Sulibele, Nandigudi of Hoskote Taluk and parts of Kasaba, Satnur and Uyyamballi Hoblis of Kankanhalli Taluk had withered. Condition of standing crop is good in other parts of the District.

10. (1) Public are healthy.
(2) Cattle are healthy.

11. (1) Water and fooder are available.
(2) Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Horsegram is reported to have been sown in Sidlaghatta and Gudibanda Taluks.

(2) *Standing crops.*—The recent rains though late have improved the condition of the standing crops, *viz.*, Ragi, Paddy, Avare, Thogari and Horsegram. 'There is some hope of getting some crop at least' is instilled in the minds of the people. If regular rains were to come the yield of these crops may not be expected to be more than 4 annas.

(3) *Crops harvested.*—Nil.

10. There was rainfall of over an inch during the week in Kolar, Bangarpet, Chintamani, Malur, and Srinivasapur Taluks, and light showers in Bagepalli and Sidlaghatta Taluks. There was no rainfall in Mulbagal and Chikballapur Taluks during the week ending Saturday the 29th September 1951. But there was rainfall on Saturday which will be reported in the next week.

People and cattle are reported to be generaly healthy. Fodder and water are available for cattle.

TUMKUR.

8. Fairly well supplied.

Seeds sown.—Horsegram in parts of Tumkur, Gubbi, Chicknaikanahalli and Pavagada; ragi in parts of Chicknaikanahalli Taluk and Chitte jola is parts of Tumkur and Chicknaikanahalli Taluks. Transplantations of ragi is almost completed in Turuvekere Taluk.

Standing Crops.—The standing dry crops such as ragi, avare, jola, thogari, and other millets are reported to be fairly good. On account of recent rains, the withering crops have revived. The conditions of standing crops have slightly improved.

Crops Harvested.—Paddy in parts of Kunigal and Gubbi.

10. *Public Health.*—Public health is generally good, except for the prevalence of Plague in Kethrikehal and rat-fall in Malenahalli Village, in Chicknaikanahalli Taluk and plague in Kyathasandra Village in Tumkur Taluk. Needful action is reported to have been taken to check the spread of the epidemic.

11. Cattle are reported to be generally healthy. Water and fodder are available. Labour is available for agricultural classes. The recent rains have considerably eased the situation. State forests have been thrown open for free grazing.

MYSORE.

8. It is reported that the markets are normally well supplied in all the taluks of the District.

Seeds sown.—It is reported that horsegram was sown in Heggaddevankote, Hunsur, Chamarajanagar and Mysore Taluks and pulses in Chamarajanagar, Nanjangud and Periyapatna Taluks.

9. *Standing crops.*—Such as paddy, ragi, togari, cotton, castor, sugarcane and groundnut are improving after recent rains all over the District except in case of Taluks in Mysore Sub-Division where paddy is not at all sown.

10. *Crops harvested.*—It is reported that kar-ragi is being harvested in Hunsur Taluk and harvesting of jola is almost completed in the Taluks of Mysore and Gundlupet. The yield of ragi and jola crop is very poor onaccount of the withholding of rains and due to pest attack.

(1) Prospects of the season are improving in all the taluks of the District due to recent good rains.

(2) There was good rainfall in all the taluks of the District except in Chamarajanagar, Heggaddevankote and Gundlupet Taluks where heavy rains are still needed in order to augment the supply of water to tanks.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of grains are made available all over the District.

(5) Public Health is reported to be generally good except for the prevalence of Plague in a few villages of Heggaddevankote and Gundlupet Taluks and Cholera in a few villages of Mysore Taluk. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District.

MANDYA.

8. Well supplied.

9. The standing crop of sugarcane in Visvesvaraya Canal Area is reported to be good. The standing paddy crop in nala and Tank atchkat is also reported to be good. Dry crops especially ragi in a large extent in all the Taluks had suffered on account of failure of rains and the crops which had survived are reported to have improved due to recent rains. Horsegram in being sown in all parts of the District.

10. Prospects of the season are reported to be satisfactory.

11. The public health is reported to be good throughout the District. Cattle are reported to be healthy. Fodder and water are reported to be available in sufficient quantities in all the taluks of the district.

HASSAN.

8. Well supplied.

9. Sowing operations are over. The condition of the standing crops, paddy, ragi, jola and sugarcane is reported to be fairly good. Due to recent rains the disease like gallfly and katte roga are reported to have subsided to a considerable extent in paddy fields.

10. There have been continuous rain throughout the District which has eased the tense situation which was prevailing in the previous week. Rainfall will be necessary for paddy crop. Some of the small tanks have received adequate water supply. Big tanks have yet to impound sufficient water supply.

11. Cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. Transplantation of paddy was completed in Hosanagar Taluk. The recent rainfall has improved the condition of the standing crops. But the Ragi crop in Honnali Taluk is reported to have become bad in some parts of the Taluks. It is reported that the crops in the rainfed areas of Shikaripur Taluk have withered owing to continuous stoppage of rains in the previous weeks. It is also reported that the condition of the crops in the Taluk may improve if the present rainfall continues. Save and groundnut in Channagiri Taluk and the Ragi in Shikaripur were harvested.

10. Prospect of the season was generally good. Rainfall was sufficient in all the Taluks of the District except in Shikaripur Taluk where some more rainfall is needed for improving the condition of the crops in rainfed areas.

11. Cattle were healthy in all the Taluks of the District except in Honnali Taluk where there was prevalence of Chapperoga; preventive measures were taken. Water and fodder were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. The prices of the food grains continued to be high.

9. (1) *Standing crops.*—Paddy, ragi and sugarcane in Chikmagalur Taluk, ragi, paddy, groundnut, cotton, togari, avare, horsegram in Kadur and Tarikere Taluks, paddy, in Koppa, Mudigere and Sringeri Taluks, paddy and sugarcane in Narasimharajapura Sub-Taluk were the standing crops. Paddy crop in Mudigere Taluk was affected with Leptispa pest and action is being taken by the Local Plant Protection Assistant of the Agricultural Department in the matter.

(2) *Seeds sown and transplantation made.*—Summer jola, coriander and horsegram were sown during the week in Kadur Taluk.

(3) *Crops harvested.*—Nil.

10. Prospects of the season are reported to be generally fair during the week under report. There was good rainfall in all the Taluks. Rains are required in Kadur, Tarikere and Mudigere Taluks. Some of the tanks in Tarikere Taluk are full by recent rainfall and some others still require water.

11. Public Health was reported to be generally good. Cattle are generally healthy except in the villages of Bettagere, Halike and Owsana Villages of Mudigere Taluk where "Gastero-enterities" disease prevailed among the cattle. Water and fodder were sufficiently available.

CHITALDRUG.

8. Markets are well supplied except the controlled articles.

9. *Sowing.*—Sowing of Bilijola, Cotton, Kadle, Coriander and Kusume in Chitaldrug Taluk, Bilijola and Cotton in Hiriyur and Molakalmuru Taluks and Navane and Cotton in Jagalur Taluk are reported to be in progress.

Standing crops.—The dry crops of Jola, Navane, Haraka, Save have failed in Challakere Taluk due to failure of rains. Paddy, Jola, Navane, Sajje, Haraka, Cotton, Groundnut, Ragi, Togari and oil seeds are reported to be improving due to recent rains.

Harvesting.—Harvesting of Save, Groundnut and Til in Davangere Taluk, Sugarcane in Hiriyur Taluk, Giddaragi in Challakere Taluk are reported to be in progress.

10. Cooly classes are finding sufficient labour throughout the District.

Cattle are reported to be generally healthy throughout the District except the prevalence of Black Quarter in Challakere and Jagalur Taluks. The Veterinary Deprtment is reported to have been addressed to take preventive measures.

Public health is generally good except for the reported rat-fall at Komarnahalli in Harihar Taluk and the prevalence of Cholera in a few villages in Harihar Taluk and at Chikkajajur, Holalkere Railway Station in Holalkere Taluk and at Mayakonda in Davangere Taluk. The District Health Officer is reported to have been addressed to take preventive measures. Notifications prohibiting the holding of shandies at Holalkere Railway Station, Holalkere and Mayakonda are issued.

11. Fodder is available throughout the District except in some parts of Challakere and Molakalmuru Taluks. Water is available throughout the District.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,

Bangalore,
Dated 2nd October 1951.

K. SRINIVASAN,
Revenue Commissioner.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

431

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE FOR THE WEEK ENDED THURSDAY, THE 20TH SEPTEMBER 1951.

A total of 31 attacks with 14 deaths from Plague was returned from 11 villages in 8 taluks in 3 districts during the week. The City of Bangalore reported free from Plague. The Cities of Mysore and Kolar Gold Fields reported 1 attack with nil death and 1 attack with nil death, respectively. Comparative figures for the corresponding week in 1950 and 1949 were 20 attacks with 16 death and 44 attacks with 27 deaths, respectively.

A total of 31 attacks with 6 deaths from Small-pox were reported from the Cities of Mysore, Kolar Gold Fields and Pandavapura Town and from the taluk of Bangalore South.

Forty-seven attacks with 22 deaths from Cholera were reported from the City of Bangalore and Arsikere Town and from the taluks of Goribidnur, Haribar, Holalkere, Mysore and Srirangapatna.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 250 (68 in hospitals) for 7 days representing a calculated death-rate of 16·4 (12·0 excluding hospital deaths) per mille of population (annual basis) as against 21·6 (14·1 excluding hospital deaths) for the corresponding week of last year. Classified according to causes, the deaths numbered 3 under Typhoid, 2 under Other Fevers, 27 under Dysentery and Diarrhœa and 218 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 61 (21 in hospitals) for 6 days representing a calculated death-rate of 14·8 (9·7 excluding hospital deaths) per mille of population (annual basis) as against 17·2 (7·6 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were Small-pox 2, Malaria 2, Typhoid 1, Other Fevers 6, Dysentery and Diarrhœa 10 and All Other Causes 40. The reported mortality was very low.

There were 36 deaths (7 in hopitals) for 7 days from all causes in Kolar Gold Fields equivalent to a calculated death-rate of 11·7 (9·4 excluding hospital deaths) per mille of population (annual basis). Classified according to causes the deaths numbered 1 under Small-pox, 1 under Malaria, 1 under Other Fevers, 4 under Dysentery and Diarrhœa and 29 under All Other Causes. The reported mortality was very low.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.

9 (1) *Crop sown.*—Horsegram in Hoskote and Devanahalli Taluks.

(2) *Transplantation.*—Paddy in Bangalore North Taluk.

(3) *Harvest.*—Nil.

(4) *Standing crops.*—Paddy, ragi, sugarcane, avare, togari and til are fairly in good condition. The recent rains have given life to the dry crops. But fair yield could not be expected since rains are late.

(5) *Availability of water.*—Water is available in tanks for irrigation.

(6) In Hosakote Taluk crops in Kasaba II Circle, Sulibele and Nandagudi I and II Circles, are badly affected. Yield expected is below 4 annas in some of the villages of this Taluk. Dry crops require more rains in Kankanhalli, Doddaballapur and Hosakote Taluks.

10. (1) Public Health is generally good except for the prevalence of plague in Shivanapura and Bhimapura in Hosakote Taluk and cholera in Bannikuppe, Karenahalli, Bidadi Hobli, Ramanagaram Taluk. Out of 14 attacks, 4 deaths occurred. Action is taken to prevent the spread of diseases.

(2) Cattle are generally healthy.

11. (1) Water and fooder are available.

(2) Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Horsegram is reported to have been sown.

(2) *Standing crops.*—There was rainfall on the last day of the previous week. The condition of the standing crops in some parts of Kolar, Malur, Bangarpet has slightly improved. But the loss suffered by crops however is not likely to be made good as a result of these rains and the recent showers have eased the situation of fodder and water for cattle. The condition of standing crops in the remaining taluks continues to be unsatisfactory.

(3) *Crops harvested.*—Nil.

10. Though there was rainfall during the week in all Taluks, the conditions of standing crops have not improved much. However as a precautionary measure action is being taken to start relief works to provide labour for cooly classes.

11. People and cattle are reported to be generally healthy.

TUMKUR.

8. Fairly well supplied.

Seeds sown.—Sowing of chitte jola in parts of Tumkur; ragi and short term jola in parts of Chiknaikanahalli.

Standing crops.—The standing dry crops such as ragi, avare, jola, navane and other minor millets are reported to be fairly good on account of recent rains except in Pavagada Taluk where the crops are reported to have suffered badly for want of timely rains. Korlu and navane may improve. Paddy in Chiknaikanahalli, Gubbi, Tumkur, Koratagere and Kunigal Taluks, is reported to be in fair condition and sugarcane in parts of Kunigal Taluk is also reported to be good.

Crops Harvested.—Vaishaki paddy in parts of Gubbi and Kunigal Taluks.

10. *Public Health.*—Public health is generally good, except for the prevalence of rat falls in Malenahalli Village of Chiknaikanahalli Taluk. Needful action is reported to have been taken to check the spread of the epidemic.

11. Cattle are reported to be generally healthy except for the prevalence of Blackquarter in Konthihalli of Tumkur Taluk and Musavanaghatta of Tiptur Taluk. Preventive measures are reported to have been taken to check the spread of the epidemic. Water and fodder are available. The State Forests have been thrown open for free grazing. Labour is available for agricultural classes.

MYSORE.

Not received.

MANDYA.

8. Well supplied.

9. The standing crop of sugarcane in Visvesvaraya Canal Area and paddy in the tank and nala atchkats are in all the taluks are reported to be in good condition. Transplantation of paddy under tank atchkats in Maddur Taluk is reported to be in progress. Horsegram is sown in all the parts of the District. The surviving ragi and other dry crops are reported to be fairly in good condition.

10. Prospects of the season are reported to be satisfactory.

11. The public health is reported to be generally good throughout the District except for the prevalence of stray cases of suspected cholera in Belagola and Srirangapatna Taluk. Preventive measures are reported to have been taken to check the spread of the epidemics. Cattle are reported to be healthy. Fodder and water are reported to be available in sufficient quantities in all the Taluks of the District.

HASSAN.

8. Well supplied.

9. Ibbani jola is being planted in Arsikere, Channarayapatna, Hole-Narasipur and Hassan Taluks. Harvesting of gidda ragi is almost over. Jola is being harvested. Condition of paddy, dodda ragi and sugarcane is reported to be fairly satisfactory.

10. Prospects of the season are fairly good.

11. The cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. The standing crop has considerably improved on account of the recent rainfall. But the ragi crop in a few parts of Honnali Taluk is reported to have been affected adversely. Some more rain-fall is required for the jola crop of the taluk. More rains are needed for the rain-fed paddy crop of Shikaripur Taluk. The tanks in Shikaripur and Bhadravati Taluks need more rains to be filled up. Paddy pests in Sorab Taluk have been brought under control. In general the condition of the standing crop has been considerably improved on account of the recent rainfall. Groundnut is being harvested in Honnali and Chennagiri Taluks. Ragi is being harvested in Shikaripur Taluk. The harvest of ragi and jola has commenced in Chennagiri Taluk.

10. Prospect of the season was generally good. Rains are needed in Honnali, Shikaripur and Bhadravati Taluks. There was prevalence of Cholera in Anaveri Circle of Bhadravathi Taluk. Preventive measures were taken.

11. Cattle were healthy in all Taluks except in Honnali and Sagar Taluks where there prevailed cattle diseases. Preventive measures are reported to have been taken.

Water and fodder were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. Prices of the food grains were high.

9. (1) *Standing crops.*—Paddy, ragi and sugarcane in Chikmagalur Taluk, ragi, paddy, groundnut, avare, togari and sugarcane in Kadur and Tarikere Taluks, paddy in Mudigere, Koppa and Sringeri Taluks, paddy and sugarcane in Narasimharajapura Sub-Taluk were the standing crops.

In some villages of Amrithapur Hobli in Tarikere Taluk, it is reported that a type of insects of about 1 to 1½ inches in length green in colour are feeding upon grass in the grass fields but have not yet entered the standing paddy or ragi crops. However, the ryots have been advised in the matter. The authorities of the Agricultural Department have been intimated to take necessary preventive measures in the matter.

(2) *Seeds sown and transplantation made.*—Summer jola, horsegram and navane were sown in Kadur Taluk during the week under report.

(3) *Crops harvested.*—Groundnut, til and coriander where harvested in Tarikere Taluk during the week under report.

10. Prospects of the season are reported to be generally good except in Kadur Taluk, which requires further rains for the standing crops Tanks in Tarikere Taluk except in Shivane and Ajjampur hoblies are completely filled with water.

11. Public Health was reported to be generally good except in Kadur Taluk, where it was reported that there was rat fall in Yagati village of Yagati Hobli. The authorities of the Health Department were requested to take necessary preventive measures. Cattle are generally healthy except in the villages of Bettagere, Halike and Owsana villages, where "Gastero-enterities" disease prevailed among the cattle. Water and fodder were sufficiently available.

CHITALDRUG.

8. Markets are well supplied except the controlled commodities.

9. *Sowing.*—Sowing of Bilijola, Cotton, Kadle, Coriander and Kusume in Chitaldrug Taluk, Horsegram in Challakere Taluk, Bilijola in Hiriyur Taluk, Cotton, Navane and Bilijola in Holalkere Taluk, Horsegram, Cotton and Bilijola in Molakalmuru Taluk, Kadle in Jagalur Taluk and Cotton in Harihar Taluk are reported to be in progress.

Standing crops.—The dry crops in Challakere Taluk have failed due to failure of timely rains. Doddaragi and Karthiki Paddy in Challakere Taluk; Jola, Navane, groundnut in Hiriyur Taluk, Ragi, Jola, Cotton, Sajje, Paddy, Horsegram, Til, Dhall etc., in Davangere Taluk; Ragi, Jola, Groundnut, Horsegram in Jagalur Taluk; Ragi, Save, Navane, Paddy and Thogari in Hosadurga Taluk and Ragi, Jola, Navane, Cotton in Harihar Taluk are reported to be improving due to recent rains.

Harvesting.—Doddaragi in Challakere Taluk; Kesari Jola in Holalkere Taluk, Save and groundnuts in Davangere Taluk; Jola in Hosadurga Taluk are reported to be in progress.

10. Cooly classes are finding sufficient labour throughout the district.

Cattle are reported to be generally healthy except the prevalence of Black quarter in Chitaldrug, Challakere, Jagalur and Harihar Taluks. The Veterinary Department are reported to have been addressed to take preventive steps.

Public health is generally good except for the prevelance of Cholera in a few villages in Harihar Taluk at Chikkajajur, Holalkere Railway Station in Holalkere Taluk, and at Mayakonda in Davangere Taluk and reported rat-fall in Harihar Taluk as already reported in the last week. Notifications issued prohibiting the shandies at Holalkere Railway Station, Holalkere and Mayakonda is still in force.

11. Fodder and water are available throughout the district.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.

9. (1) *Crops sown.*—Horsegram in Hoskote Taluk and Devanahalli Taluk.

(2) *Agricultural operations.*—Weeding of paddy is going on in the Magadi Taluk.

(3) *Standing crops.*—Paddy, sugarcane, ragi, avare, togari and til are fairly in good condition at present.

Harvest.—Nil Water available for irrigation.

10. Prospect of the season is satisfactory at present. Public Health is generally good except for the prevalence of Cholera in Vaderahalli, Harohalli Hobli, Kankanhalli Taluk and Honganur, Bandur, Valagarahalli, Channapatna Taluk; Bannikuppe, Bethingere and Karenahalli, Ramanagaram Taluk. Action is taken to prevent the spread of disease.

11. Cattle are generally healthy except for the prevalence of Blackquarter at Kyasapura, Ramanagaram Taluk. Action is taken to prevent the spread of disease. Coolies find sufficient labour. Water and fodder are available.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Horsegram.

(2) *Standing crops.*—The damage caused to the standing crops owing to delayed rains in the past has not been made good by subsequent rains, even in favoured areas on the whole the condition of standing crops namely ragi and paddy continues to be quite unsatisfactory.

(3) *Crops harvested.*—Nil.

10. Though there was rainfall of over an inch in the Taluks of Bangarpet, Malur, Kolar, Chintamani, Mulbagal and Chickballapur during the week it was not properly distributed in the interior parts. Fodder is available for cattle. The people in affected parts, *viz.*, most of the areas in Chickballapur Sub-Division and portions in Kolar Sub-Division are anxiously praying for relief works by Government.

11. People and cattle are reported to be healthy but for prevalence of Black quarter to cattle in some parts of Srinivasapur Taluk. Preventive measures have been taken to check the spread of the epidemic by the Animal Husbandry Department.

TUMKUR.

Not received.

MYSORE.

8. It is reported that the markets are normally well supplied in all the taluks of the District during the week.

Seeds sown.—It is reported that horsegram was sown in Mysore Taluk and Bengalgram and coriander in Hunsur and Nanjangud Taluks.

9. *Standing crops.*—Such as paddy, ragi, avare, castor, togari, cotton, horsegram and pulses are reported to be improving after recent good rains except paddy in Heggaddevankote and Periyapatna Taluks. It is reported that ragi crop in some parts of Heggaddevankote Taluk has been affected by Red rot (ಕೆಂಪೆ ರೋಗ). Agriculture Department are taking necessary measures to check its spread. It is reported that paddy in some parts of T.-Narsipur Taluk is reported to have been affected with Gal Fly. The Department of Agriculture are taking necessary preventive measures to check its spread.

10. *Crops harvested.*—It is reported that groundnut is being harvested in Nanjangud and Hunsur Taluks and chillies in Nanjangud Taluk.

(1) Prospects of the season are improving after the recent heavy rains.

(2) There was fairly good rainfall in all taluks of the District except in Gundlupet, T.-Narsipur and Heggaddevankote Taluks. Some of the tanks in Chamarajanagar, Periyapatna and Hunsur Taluks have received some water by recent rains.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of food grains are made available all over the District.

(5) Public Health is reported to be generally good except for the prevalence of Plague in a few villages of Heggaddevankote, Mysore, Gundlupet and Nanjangud Taluks and small pox in one village of Heggaddevankote Taluk. Necessary preventive and remedial measures are being taken to check the spread of the epidemic.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District.

MANDYA.

8. Well supplied.

9. The standing crop of sugarcane in Visvesvaraya Canal Area and paddy in nala and tank atchkats are reported to be in good condition. The standing dry crops are also reported to be fairly good in all the taluks of the District.

10. Prospects of the season are reported to be satisfactory.

11. The public health is reported to be generally good throughout the District. Cattle are reported to be healthy. Water and fodder are reported to be available in sufficient quantities in all the taluks of the District.

HASSAN.

8. Well supplied.

9. Agricultural operations are over. The condition of the standing crops such as paddy, dodda ragi and sugarcane is reported to be good. Harvesting of gidda ragi is over. For transplantation of dodda ragi rains are needed till about the third week of November 1951.

10. Prospects of the seasonal conditions are reported to be much improved.

11. The cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. The condition of the standing crop has considerably improved on account of recent rains. But the ragi crop in a few parts of Honnali Taluk is reported to have been affected adversely. Some more rainfall is required for the standing crop of Honnali Taluk. The standing crop of the Shikaripur Taluk has also improved appreciably on account of continuous rainfall. Even the adversely affected crop in the taluk is reported to have improved. The ragi, rainfed paddy and the paddy crop in "Medu" portions of Bhadravathi are also reported to be improving—Groundnut, save, ragi and jola were harvested in Chennagiri Taluk—Ragi and groundnut were harvested in Shikaripur Taluk.

10. Prospect of the season was generally good. Rains are needed in Honnali and Thirthahalli Taluks. There was prevalence of "Cholera" in Dombarahalli Village of Bhadravathi Taluk. Preventive measures were taken.

11. Cattle were healthy in all the taluks except in Honnali and Sagar Taluks where there prevailed cattle diseases. Preventive measures were taken.

Water and fodder were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. Prices of the food grains were high.

9. (1) *Standing crops.*—Paddy, ragi and sugarcane in Chikmagalur Taluk, ragi, paddy, groundnut, avare, togari and sugarcane in Kadur and Tarikere Taluks, paddy in

Mudigere, Koppa and Sringeri Taluks, paddy and sugarcane in Narasimharajapura Sub-Taluk were the standing crops. The paddy crop in some parts in Mudigere taluk is affected by "Gallfly" Pest and in some other parts by leptispa and the Local Plant Protection Assistant is taking necessary preventive measures. In Tarikere taluk, a type of insects are found in Naganahalli village of Shivane Hobli, which are damaging the ragi and save crops. The authorities of the Agricultural Department have been requested to take necessary preventive measures.

(2) *Seeds sown and transplantation made.*—Sowing of Hingaru coriander was being done in some parts of Tarikere taluk.

(3) *Crops harvested.*—Coriander, til and groundnut were being harvested during the week under report in Tarikere Taluk.

10. Prospects of the season are reported to be generally good. Tanks in Tarikere Taluk were completely filled with water.

11. Public health is reported to be generally good during the week under report. Cattle are generally healthy except in the villages of Bettagere, Halike and Owsana villages, where "Gastero-enterities" disease prevailed among the cattle. Water and fodder were sufficiently available.

CHITALDRUG.

8. Markets are well supplied except the controlled articles..

9. *Sowing.*—Sowing of Bilijola and Gramdal in Chitaldrug Taluk, Horsegram in Challakere Taluk, Bilijola and Cotton in Hiriyur Taluk, Bilijola, Navane and Cotton n Holalkere Taluk, Kadle in Jagalur Taluk, Bilijola and Horsegram in Hosadurga Taluk and Cotton and Navane in Harihar Taluk are reported to be in progress due to recent rains.

Standing crops.—Jola in Chellakere Taluk has failed for want of timely rains. Karthiki paddy under Tanks, Nalas and Irrigation Wells in Chellakere Taluk, Paddy, Jola, Navane, Sajje, Ragi, Harka and Cotton in Hiriyur Taluk, Kesari Jola, Ragi, Navane, Cotton, Haraka, Save in Holalkere Taluk, Ragi, Jola, Cotton, Paddy, Dhal, Til, Horsegram and Sajje in Davangere Taluk, Groundnut, Togari, Navane, Cotton, Jola, Horsegram and paddy in Jagalur Taluk, Ragi, Jola, Navane and Cotton in Harihar Taluk are reported to be improving due to recent rains.

Harvesting.—Doddaragi and Giddaragi in Challakere Taluk; Sugarcane in Hiriyur Taluk, Kesari Jola in Holalkere Taluk, Groundnut, Save and Til in Davangere Taluk, Jola in Molakalmuru Taluk, groundnuts in Jagalur Taluk, Jola in Hosadurga Taluk and Groundnut in Harihar Taluk are reported to be in progress.

10. Cooly classes are finding sufficient labour throughout the district.

Cattle are reported to be generally healthy except the prevalence of Blackquarter in Challakere Taluk. No fresh cases of Blackquarter in Harihar Taluk are reported during this week. The Authorities of the Veterinary Department are reported to have been addressed to take preventive measures in Chellakere Taluk.

Public health is generally good except for the prevalence of Cholera at Chikkajajur, Holalkere Railway Station, Mayakonda in Kakkavada in Davangere Taluk. The District Health Officer is reported to have been addressed to take preventive measures. Notifications prohibiting the shandies at Holalkere Railway Station, Holalkere, Chikkajajur and Mayakonda issued are still in force. The Cholera prevailing in Harihar Taluk is reported to have subsided.

11. Fodder and water are available throughout the district.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,

Bangalore,
Dated 16th October 1951.

K SRINIVASAN,
Revenue Commissioner.

MYSORE STATE—DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, FOR THE WEEK ENDED SEPTEMBER 27, 1951.

A total of 29 attacks with 10 deaths from Plague was returned from 13 villages in 8 taluks in 6 districts during the week against 31 attacks with 14 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Field reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 37 attacks with 19 deaths and 41 attacks with 241 deaths, respectively.

A total of 24 attacks with 3 deaths from Small-pox were reported from the Cities of Mysore and Kolar Gold Field and from the towns of Narasimharajapura and Shimoga and from the taluks of Bhadravathi, Holalkere, Honnali, Heggaddevankote, Mulbagal, Malur and Pandavapura.

Ninety-one attacks with 49 deaths from Cholera were reported from the towns of Arsikere and Shimoga and from the taluks of Bangalore South; Bagepalli, Holalkere, Harihar, Krishnarajanagar, Nelamangala and Sreerangapatna.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 218 (57 in hospitals) for 7 days representing a calculated death-rate of 14·3 (10·6 excluding hospital deaths) per mille of population (annual basis) as against 25·8 (18·4 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Typhoid, 2 under Other Fevers, 21 under Dysentery and Diarrhœa and 194 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 73 (31 in hospitals) for 5 days representing a calculated death-rate of 21·5 (12·4 excluding hospital deaths) per mille of population (annual basis) as against 21·2 (13·0 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were Malaria 1, Other Fevers 11, Dysentery and Diarrhœa 9 and All Other Causes 52. The reported mortality was very low.

There were 78 deaths (58 in hospitals) for 6 days from all causes in Kolar Gold Fields equivalent to a calculated death-rate of 29·2 (7·5 excluding hospital deaths) per mille of population (annual basis). Classified according to causes, deaths numbered 1 under Small-pox, 1 under Other Fevers, 5 under Dysentery and Diarrhœa and 71 under All Other Causes. The reported mortality was very low.

4414

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE WEEK ENDED THURSDAY, 4TH OCTOBER 1951.

A total of 8 attacks with 5 deaths from Plague was returned from 6 villages in 5 taluks in 4 districts during the week against 29 attacks with 10 deaths in the previous week. The Cities of Bangalore, Mysore, and Kolar Gold Fields, reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 16 attacks with 11 deaths and 27 attacks with 11 deaths respectively.

A total of 11 attacks with 5 deaths from Small-pox were reported from the Cities of Mysore and Kolar Gold Fields and from the Towns of Narasimharajapura and Shimoga and from Channagir Taluk.

Seventy-eight attacks with 38 deaths from Chelora were reported from the taluks of Arsikere, Bangalore South, Hunsur, Holalkere, Harihar, and Sreerangapatna.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 192 (4.7 in hospitals) for 7 days representing a calculated death-rate of 12·6 (9·5 excluding hospital deaths) per mille of population (annual basis) as against 19·6 (14·0 excluding hospital deaths) for the corresponding week of last year. Classified according to causes, the deaths were Typhoid 1, Other Fevers 1, Dysentery and Diarrhœa 25 and All Other Causes, 165. The reported mortality was very low.

The total mortality for Mysore City was 72 (12 in hospitals) for 4 days representing a calculated death-rate of 26·8 (22·4 excluding hospital deaths) per mille of population (annual basis) as against 14.1 (9.0 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were Small-pox 2, Malaria 1, Typhoid 1, Other Fevers 10, Dysentery and Diarrhœa 7, and All Other Causes 51. The reported mortality was low.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Markets well supplied.

9. *Crops sown.*—Horsegram in Hoskote Taluk.

Standing crops.—Sugarcane, paddy, ragi, groundnut, avare, thogari and horsegram are fairly in good condition. In twenty villages of Kankanhalli Taluk, ragi crop had withered away by the time rains commenced.

Wet crops have failed in Uttarahalli Hobli, I Circle, Bangalore South Taluk. Dry crops in Krishnarajapuram, II Circle of Bangalore South Taluk require more rains. Ragi and dry crops are affected in Sasalu and part of Thubigere Hobli in Doddaballapur Taluk.

Availability of water.—The tank of Kambal Village, Somapur Circle I, has only 20 days of water. Tanks of Heggunda, Nidavanda, Narasipur, Doddabele in Nelamangala Taluk have not received supply of water.

Agricultural operations.—Weeding of paddy is going on in Magadi Taluk.

10. Fairly satisfactory.

Public Health is generally good except for rat falls at Yedehalli, Somapur I Circle, Nelamangala Taluk. Immediate preventive action is taken. Cholera at Bannikuppe, Karenahalli and Bethingere, Bidadi Hobli, Ramanagaram Taluk, is not yet subsided.

Preventive action is taken to prevent the spread of the disease. Cattle are generally healthy except for prevalence of Blackquarter in Kyasapura, Kutigere Hobli, Ramanagaram Taluk. Preventive measures are taken.

11. Water and fodder are available. Coolies find sufficient labour.

KOLAR.

Not received.

TUMKUR.

8. Fairly well supplied.

9. *Seeds sown.*—Sowing of short term jola and horsegram in parts of Chiknaikanahalli Taluk and jola in parts of Turuvekere Taluk.

Standing crops.—The standing dry crops are reported to be fair in all the Taluks except in Pavagada and Sira Taluks. The standing dry crops require more rain, paddy crop is reported to be good in Tumkur, Kunigal, Gubbi, Turuvekere, Koratagere, Gubbi and Chiknaikanahalli Taluks.

Crops harvested.—Vyshaki paddy in parts of Gubbi and Kunigal Taluks and yade ragi in parts of Sira Taluk.

10. *Public Health.*—Public Health is generally good, except for the prevalence of plague in Honnebagi and rat falls in Aralikere, Dibbadahalli, Kuppur, Kandikere, Maligehalli and Settikere Villages in Chiknaikanahalli Taluk. Needful action is reported to have been taken to check the spread of the epidemic.

11. *Cattle.*—Cattle are reported to be generally healthy except for the prevalence of Blackquarter in Ganganala and Siddappana Palya villages in Tumkur Taluk and in Pura of Turuvekere Taluk. Preventive measures are reported to have been taken to check the spread of the epidemic. Water and fodder are available. The State Forests have been thrown open for free grazing. Labour is available for Agricultural Classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the taluks of the District during the week.

Seeds sown.—It is reported that coriander and Bengalgram was sown in Nanjangud, Hunsur and Periyapatna Taluks and pulses in Heggaddevankote Taluk.

9. *Standing crops.*—Such as ragi, paddy, castor, avare, togari, cotton, sugarcane and mulberry are reported to be generally good and improving after the recent heavy rains. The standing paddy crop in some parts of T.-Narasipur Taluk is reported to have been affected by a kind of pest, *viz.*, Gall Fly "ಕೊಳವೆ ರೋಗ" and the yield in these parts is stated to be low. The Agriculture Department are taking necessary measures to check its spread. The ragi crop in parts of Heggaddevankote Taluk is affected by Red Rot (ಮೊಜ್ಜೆರೋಗ). Agriculture Department are taking necessary measures to check its spread. But full ragi crop cannot be realised.

10. *Crops harvested.*—It is reported that jola is being harvested in Heggaddevankote Taluk and groundnut in Hunsur, Mysore and Nanjangud Taluks and chillies in Periyapatna and Nanjangud Taluks.

(1) The prospects of the season are much improving after recent good rains.

(2) There was fairly good rainfall in all taluks of the District except in the taluks of Krishnarajanagar, Gundlupet and Periyapatna.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of food grains are made available all over the District.

(5) Public Health is reported to be generally good except for the prevalence of plague in a few villages of Krishnarajanagar, Heggaddevankote, Mysore and Nanjangud Taluks and small-pox in one village of Chamarajanagar Taluk. Necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District.

MANDYA.

8. Well supplied.

9. The standing crop of sugarcane in Visvesvaraya Canal Area and paddy in nala and tank atchkats are reported to be in good condition. The standing dry crops are also reported to be fairly good in all the taluks of the District.

10. Prospects of the season are reported to be satisfactory.

11. The public health is reported to be generally good throughout the District. Cattle are reported to be healthy. Fodder and water are reported to be available in sufficient quantities in all the taluks of the District.

HASSAN.

8. Markets well supplied.

9. Agricultural operations are over. The condition of the standing crops such as paddy, dodda-ragi and sugarcane is reported to be good. Harvesting of gidda-ragi is over. Sowing of horsegram, bengalgram is done in Channarayapatna, Hassan, Arsikere and Holenarasipur Taluks.

10. Prospects of the season are reported to be fair.

11. The cattle were healthy and fodder available.

SHIMOGA.

8. Well supplied.

9. Coriander in Shikaripur Taluk; and horsegram, bengalgram and wheat in Honnali Taluk, were sown.

The condition of the standing crop was generally fair. But the ragi crop in a few parts of Honnali Taluk, and the paddy crop in border villages of Shikaripur Taluk were affected adversely on account of the past draught. The adversely affected crop of Bhadravati Taluk is improving on account of recent rainfall. The average yield of the mungar crop of Sorab Taluk is reported to be a little less on account of the past draught. Ragi and jola in Chennagiri Taluk. Groundnut in Shikaripur, Honnali and Bhadravati Taluks were harvested.

10. Prospect of the season was generally fair. Rains are needed to the paddy crop of the villages round about

Tavarekere in Chennagiri Taluk. The standing crop of Honnali Taluk is also in need of some more rainfall. The standing crop of Makkigadde Village in Thirthahalli Taluk is in need of rainfall.

11. Cattle were healthy in all the taluks of the District except in the taluks of Honnali and Sagar where cattle diseases prevailed. Preventive measures were taken.

Water and fodder were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. Prices of the food-grains were high.

9. (1) *Standing crops.*—Paddy, ragi and sugarcane in Chikmagalur Taluk, ragi, paddy, sugarcane, cotton, groundnut, togari and avare in Kadur Taluk, paddy, ragi, jola, greengram, wheat, blackgram, sugarcane and horsegram in Tarikere Taluk, paddy in Mudigere, Koppa and Sringeri Taluks, paddy and sugarcane in Narasimharajapura Sub-Taluk were the standing crops. Ragi and save crops are damaged by some insects in Nagenahalli Village and other surrounding villages in Shivane Hobli of Tarikere Taluk. The authorities of the Agricultural Department have been requested to take necessary preventive measures.

(2) *Seeds sown and transplantation made.*—Sowing of Hingaru coriander and bengalgram in some parts of Tarikere Taluk was under progress.

(3) *Crops harvested.*—Groundnut, til and coriander were harvested in Tarikere Taluk and the thrashing of Mungar jola was going.

10. Prospects of the season are reported to be generally good throughout the District. The makki lands in Sringeri Sub-Taluk are reported to be in need of rain, as there was no rainfall during the last week. Rainfall is required for the other rainfed paddy lands in the district.

11. Public health was reported to be generally good during the week under report, except for the outbreak of Small-pox in Narasimharajapura. Cattle were generally healthy. Water and fodder were sufficiently available.

CHITALDRUG.

8. Markets are well supplied except the controlled commodities.

9. *Sowing.*—Sowing of Bilijola, Cotton, Kadle, Coriander and Kusume in Chitaldrug Taluk, Horsegram in Challakere Taluk, Bilijola and Cotton in Hiriyur Taluk, Navane, Bengalgram and Bilijola in Holalkere Taluk and Horsegram in Harihar Taluk are reported to be in progress.

Standing crops.—Jola crop in Challakere Taluk has failed for want of timely rains. Karthiki paddy under irrigation wells and nalas and tanks in Challakere Paddy, Jola, Navane, Sajje, Ragi, Haraka, Cotton and Sugarcane in Hiriyur Taluk; Ragi, Jola, Cotton, Paddy, Horsegram, Dhall, Til, in Davangere Taluk; Jola, Sajje, Groundnut, Navane, Paddy, Kadle, Cotton in Jagalur Taluk and Ragi, Save, Sajje, Navane and Paddy in Hosadurga Taluk are reported to be improving due to recent rains.

Harvesting.—Doddaragi in Challakere Taluk; Sugarcane in Hiriyur Taluk, Kesari Jola in Holalkere Taluk; Groundnut and Til in Davangere Taluk; Jola and groundnut in Molakalmuru Taluk, Groundnut in Jagalur Taluk; Jola in Hosadurga Taluk and Groundnut in Harihar Taluk are reported to be in progress.

10. Cooly classes are finding sufficient labour throughout the district.

The cattle are reported to be generally healthy except for the prevalence of Blackquarter in a few villages in Chitaldrug, Challakere and Jagalur Taluks. No fresh cases of "Blackquarter" in Harihar Taluk are reported during this week. The Authorities of Veterinary Department are reported to have been addressed to take preventive measures. Public health is generally good except for the prevalence of "Small-Pox" and "Malaria" in Palavanahalli in Hiriyur Taluk, "Cholera" at Kokkavada, Kolenahalli and Kanagondanahalli in Davangere Taluk and Chikjajur in Holalkere Taluk. The District Health Officer is reported to have been addressed to take preventive measures. Notifications prohibiting the shandies at Chikjajur is still in force. The "Cholera" prevailing in Harihar Taluk is reported to have subsided.

11. Fodder and water are available throughout the district for the present.

444

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE,

Bangalore,
Dated 23rd October 1951.

K. SRINIVASAN,
Revenue Commissioner.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE WEEK ENDED 11TH OCTOBER 1951.

A total of 16 attacks with 7 deaths from Plague was returned from 11 villages in 5 taluks in 3 districts during the week against 8 attacks with 5 deaths in the previous week. The City of Mysore reported 1 attack with 1 death. The Cities of Bangalore and Kolar Gold Fields reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 20 attacks with 13 deaths and 39 attacks with 17 deaths respectively.

A total of 29 attacks with 8 deaths from Small-pox were reported from the Cities of Mysore and Kolar Gold Fields and from the Towns of Pandavapura and Shimoga and from the Taluks of Chamarajanagar, Goribidnur, Gundlupet, Harihar, Shikaripur and Shimoga.

Forty-nine attacks with 27 deaths from Cholera were reported from Mysore City, and from the towns of Maya, konda and Tiptur and from the taluks of Arsikere, Bangalore N., Bangalore S., Channagiri, Harihar, Hassan-Hunsur, S. R. Patna and Shimoga.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 196 (47 in hospitals) for 7 days representing a calculated death-rate of 12·9 (9·8 excluding hospital deaths) per mille of population (annual basis) as against 19·9 (13·6 excluding hospital deaths) for the corresponding week of last year. Classified according to causes, the deaths numbered 3 under Other Fevers, 22 under Dysentery and Diarrhœa, and 171 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 23 (10 in hospitals) for 3 days representing a calculated death-rate of 11·2 (6·3 excluding hospital deaths) per mille of population annual basis as against 13.3 (9.7 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were Small-pox 1, Other Fevers 8, Dysentery and Diarrhœa 1, and All Other Causes 13. The reported mortality was very low.

4607 T. CHANDRASEKHARAIYA, *Director.*

OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY SERVICES IN MYSORE, BANGALORE.

(HEALTH OF LIVE-STOCK DURING SEPTEMBER 1951.)

Notification dated 19th September 1951.

In their order of severity, outbreaks of Rinderpest, Blackquarter, Hæmorrhagic-septicæmia, Anthrax, Foot and Mouth, Sheep-pox, Ranikhet, Gastro-entritis and Contagious-goat Pleuro-pneumonia were encountered in the State during September 1951. Altogether 236 villages were reported to have been affected by one or the other of the several contagious and infectious diseases, as against 297 villages during the previous month. The number of outbreaks was highest in Tumkur, Kolar, Chitaldrug and Mysore Districts, while Mandya, Hassan and Chikmagalur Districts were least affected. These diseases accounted for 993 attacks, of which 690 succumbed. The departmental staff conducted 30,017 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

An outbreak of Rinderpest among sheep were registered in Davangere Taluk accounting for 35 attacks, of which 10 succumbed. Prompt measures of control were undertaken by the Department to check its spread and 4,580 animals in the infected villages and 117 cattle and 275 sheep and goats in 2 neighbouring villages were protected against this disease. The disease appeared to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 95 villages accounting for 7 deaths as against 103 villages accounting for 7 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 6,385 animals as against 6,164 animals during the previous month.

The rest of the live-stock remained free from disease during the month, and fodder and water were generally available throughout the State.

4673 P. M. NARAYANASWAMI NAIDU, *Director.*

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE, Bangalore, Dated 15th OCTOBER 1951.

K. SRINIVASAN, *Revenue Commissioner.*

TUMKUR.

8. Fairly well supplied.

Seeds sown.—Sowing of chitte jola in parts of Tumkur Taluk.

9. *Standing crops.*—The standing dry crops are reported to be fairly good in all the taluks except in Pavagada, Madhugiri and Sira Taluks, where the crops have suffered rather badly. They are still in need of rains. Paddy in parts of Chiknaikanahalli, Gubbi, Tumkur, Kunigal and Koratagere and sugarcane in parts of Kunigal Taluks, are reported to be in a fair condition. None of the major tanks and very few minor tanks have discharged. There is not enough water in most of the tanks for the standing crops.

Crops harvested.—Vaishaki paddy in parts of Kunigal and Gubbi Taluks and Yaderagi in parts of Sira Taluk.

10. *Public Health.*—Public health is generally good, except for the prevalence of Plague in Kuppur and Marasandra Villages and rat falls in Dibbanahalli and Aralikere Villages of Chiknaikanahalli Taluk and needful action is reported to have been taken to check the spread of the epidemic.

11. Cattle are reported to be generally healthy except for the prevalence of Blackquarter in Sopanahalli Village in Tumkur Taluk and Pleuro-pneumonia to sheep in the hamlet village of Kengalapura in Chickanaikanahalli Taluk. Preventive measures are reported to have been taken to check the spread of the epidemic. Water and fodder are available. The State Forests have been thrown open for free grazing. Labour is available for agricultural classes.

8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.

9. *Crops sown.*—Nil.

Standing crops.—Paddy, sugarcane, ragi, groundnut, avare, thogari, til and horsegram are fairly in good condition. But urgent rains are required. Ragi and other dry crops are affected to some extent in some parts of Kankanhalli, Bangalore South and Doddaballapur Taluks.

Harvests.—Groundnut in Devanahalli and til in Hoskote Taluks.

Availability of water.—Available at present. During the week there was no supply of water to tanks.

10. Public Health is generally good. Prospects of the season is fairly satisfactory. Cattle are generally healthy.

11. Coolies find sufficient labour. Drinking water and fodder are available.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Nil.

(2) *Standing crops.*—The condition of standing crops remains unsatisfactory as before.

(3) *Crops harvested.*—Same and groundnut are being harvested.

10. There was rainfall of over an inch in Mulbagal and Srinivasapur Taluks and the rainfall in the remaining Taluks was negligible being few cents. Fodder and water are available for cattle.

11. People and cattle are reported to be healthy except for prevalence of Cholera in some parts of Mulbagal Taluk. Preventive measures have been taken to check the spread of the epidemic by the Public Health Department.

TUMKUR.

8. Fairly well supplied.

9. *Seeds sown.*—Sowing of short term jola and horsegram in parts of Chiknaikanahalli Taluk.

Standing crops.—The standing dry crops are reported to be fair in all the Taluks except in Sira and Pavagada Taluks. The standing dry crops are badly in need of rains. The crops have however already suffered badly and not more than four annas crop expected except in Kunigal, Turuvekere, Gubbi, Tiptur and in parts of Tumkur and Chiknaikanahalli Taluks. Paddy crop is reported to be good in Tumkur, Kunigal, Gubbi, Turuvekere Koratagere and Chiknaikanahalli Taluks and sugarcane also in good condition in parts of Gubbi and Kunigal Taluks.

Crops harvested.—Vyshaki paddy in parts of Gubbi and Kunigal Taluks and yade ragi in parts of Sira Taluk.

10. *Public Health.*—Public Health is generally good, except for the prevalence of plague in Asalipura of Tumkur Taluk and Byalakere Village in Chiknaikanahalli Taluk and rat falls in Kaggere of Tumkur Taluk, Madapura Village in Chelur Hobli in Gubbi Taluk and Hatna and Kibbanahalli Villages in Tiptur Taluk. Needful action is reported to have been taken to check the spread of the epidemic.

11. *Cattle.*—Cattle are reported to be generally healthy except for the prevalence of Anthrax in Naravangala of Tumkur Taluk and Blackquarter in Kithnamangala Village of Kunigal Taluk. Preventive measures are reported to have been taken to check the spread of the epidemic. Water and fodder are available. The State Forests have been thrown open for free grazing. Labour is available for Agricultural Classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the taluks of the District during the week.

Seeds sown.—It is reported that pulses and coriander were sown in Heggaddevankote and Periyapatna Taluks.

9. *Standing crops.*—Such as paddy, ragi, avare, togari, castor, cotton, sugarcane, pulses and groundnut are reported to be in good condition but full ragi crop cannot be realised. It is reported that the standing paddy crop in parts of T.-Narasipur Taluk is reported to have been affected by a kind of pest known as paddy Gall Fly (ಕೊಡವೆ ರೋಗ) and the Agricultural Department are taking necessary measures to check its spread. Rains are urgently required for the standing hyn ragi and paddy.

10. *Crops harvested.*—It is reported that groundnut and cotton is being harvested in Hunsur and Nanjangud Taluks; jola in Heggaddevankote; chillies and castor in Nanjangud Taluk and ragi in parts of Chamarajanagar Taluk.

(1) Prospects of the season are improving after recent good rains.

(2) There was fairly good rainfall in all the taluks of the District except in the taluks of Chamarajanagar, Heggaddevankote, Gundlupet and Periyapatna.

(3) Both the cooly and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of food grains are made available all over the District.

(5) Public Health is reported to be generally good except for the prevalence of plague in a few villages of Nanjangud, Heggaddevankote and Mysore Taluks and smallpox in some villages of Hunsur Taluk; necessary preventive and remedial measures are being taken to check the spread of the epidemics.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available throughout the District.

MANDYA.

8. Well supplied.

9. The standing crops of sugarcane in Visvesvaraya Canal Area and paddy in nala and tank atchkats are reported to be in good condition. The standing dry crops are also reported to be in good condition. There was failure of dry crops in large extents in the several taluks of this District due to failure of timely rains in previous months.

10. Prospects of the season are reported to be satisfactory.

11. The public health is reported to be generally good throughout the District except for the prevalence of smallpox infection in Belakavadi Town of Malavally Taluk and Pandavapura Town. Preventive measures are reported to have been taken to check the spread of the epidemic. Cattle are reported to be healthy. Fodder and water are reported to be available in sufficient quantities in all the taluks of the District.

HASSAN.

8. Well supplied.

9. The standing crops of paddy, ragi and sugarcane, etc., are in good condition. Rains are required throughout the District.

10. Prospects of the season are fair. The standing crops are in need of rains. Rat fall is reported in Anachihalli in Kasaba Hobli of Hassan Taluk for which remedial measures are being taken.

11. Cattle are reported to be generally healthy throughout the District, except for (ಮೊಚ್ಚೆ ರೋಗ) in Baktihalli and Rachanahalli in Kasaba Hobli of Hassan Taluk for which remedial measures are being taken. Fodder and water are available.

SHIMOGA.

8. Well supplied.

9. Fields are being prepared for sowing of wheat and Bengalgram in Honnali Taluk. The standing crop is generally fair. But the ragi crop in a few parts of Honnal Taluk, the mumphal crops and millets in Sorab Taluk and the rainfed wet crop and wet crop in medu portions of

Bhadravati Taluk were affected adversely on account of failure of timely rains in the past. Ragi and Jola in some parts of Chennagiri Taluk. Groundnut and ragi in Honnali Taluk; paddy, ragi and groundnut in Shikaripur Taluk, and the mumphal paddy crop in a few parts of Sorab Taluk were harvested. Harvesting of paddy has commenced in a few villages of Tirthahalli Taluk.

10. Prospects of the season was generally good. More rains are required for the standing crop in Chennagiri and Honnali Taluks.

11. Cattle were healthy in all the taluks in the District except in Sagar and Tirthahalli taluks where the cattle suffered from 'Naradiroga' and 'Foot and Mouth' diseases. Preventive measures are reported to have been taken.

Water and fodder were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. Prices were high.

9. (1) *Standing crops.*—Paddy, ragi, Coffee and sugarcane in Chikmagalur Taluk; jola, ragi, togari, avare, horsegram, til, groundnut and sugarcane, in Kadur and Tarikere Taluks; Paddy in other Taluks were the standing crops. It is reported that the damage caused by the insects on Ragi Crop in Tarikere Taluk is reduced considerably, owing to the timely action by the Agricultural Department in the matter.

(2) *Seeds sown and transplantation made.*—Sowing of Bengalgram in some parts of Tarikere Taluk was done.

(3) *Crops harvested.*—Mungar jola and coriander were being harvested in Tarikere Taluk during the week under report.

10. Prospects of the season are reported to be generally good throughout the District. The Makki lands in Sringeri Sub-Taluk are reported to be in need of rains, as also standing dry crops in Tarikere Taluk. The situation having improved to a considerable extent, there is no anxiety among the agricultural classes.

11. Public health is reported to be generally good during the week under report. Stray cases of outbreak of Plague in some places in Kadur Taluk are reported. Cattle were generally healthy except in Hemmakki village of Kalasa Hobli in Mudigere Taluk, where it is reported that some cattle disease prevailed. Black-quarter Disease is reported among cattle in Ittage Village of Tarikere Taluk. The Authorities of the Animal Husbandry Department have been requested to take necessary preventive measures.

CHITALDRUG.

8. Markets are well supplied except the controlled commodities.

9. *Sowing.*—Sowing of Bilijola, Cotton, Bengalgram, Kusume and Coriander in Chitaldrug Taluk is reported to be in progress.

Standing crops.—The dry crops as Sajje and Navane are reported to be not satisfactory in Challakere Taluk. Karthiki Paddy under irrigation wells, nalas and tanks in Challakere Taluk; Paddy, Jola, Navane, Sajje, Harka, Ragi, Cotton and Sugarcane in Hiriyur Taluk; Ragi, Jola, Til, Sajje, Cotton, Paddy, Horsegram in Davangere Taluk; Navane, Jola, Sajje, Paddy, Groundnut, Cotton in Jagalur Taluk and Jola, Ragi, Navane in Harihar Taluk are reported to be good but are in urgent need of rains.

Harvesting.—Doddaragi in Challakere Taluk, Sugarcane in Hiriyur Taluk, Groundnut, Til, Save and Kesari Jola in Davangere Taluk and Jola in Jagalur Taluk are reported to be in progress.

Cooly classes are finding sufficient labour throughout the District.

The cattle are reported to be generally healthy except for the prevalence of Blackquarter in a few villages in Jagalur Taluk. The authorities of Veterinary Department are reported to have been addressed to take preventive measures.

10. Public health is generally good except for prevalence of Small-Pox in Palavanahalli in Hiriyur Taluk, and Cholera at *Kakkavada*, Kolenahalli Kanagonanahalli in Davangere Taluk, Chikjajur in Holalkere Taluk and Devarabelakere, Kadalagondi in Harihar Taluk. The authorities of Health Department are reported to have been addressed to take immediate preventive measures. Notification prohibiting the Shandy at Chikjajur issued is still in force.

11. Fodder and water are available for the present.

K. SRINIVASAN,
Revenue Commissioner.

MYSORE STATE—DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, FOR THE WEEK ENDED OCTOBER 18, 1951.

A total of 8 attacks with 6 deaths from Plague was returned from 4 villages in 4 taluks in 4 districts during the week against 16 attacks with 7 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Fields reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 33 attacks with 20 deaths and 23 attacks with 10 deaths, respectively.

A total of 1 attack with 3 deaths from Small-pox were reported from Kolar Gold Fields and from the taluks of Maddur and Malur.

Eleven attacks with 2 deaths from Cholera were reported from the Citiy of Bangalore and from the taluks of Channagiri, Davanagere and Shimoga.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 247 (64 in hospitals) for 7 days representing a calculated death-rate of 16·2 (12·0 excluding hospital deaths) per mille of population (annual basis) as against 24·3 (14·8 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Typhoid, 3 under Other Fevers, 26 under Dysentery and Diarrhœa and 217 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 62 (30 in hospitals) for 5 days representing a calculated death-rate of 18·2 (9·4 excluding hospital deaths) per mille of population (annual basis) as against 10·0 (6·6 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were Malaria 2, Other Fevers 12, Dysentery and Diarrhœa 5 and All Other Causes 43. The reported mortality was very low.

There were 13 deaths (3 in hospitals) for 4 days from all causes in Kolar Gold Fields equivalent to a calculated death-rate of 7·3 (5·6 excluding hospital deaths) per mille of population (annual basis) as against 3·5 (2·5 excluding hospital deaths) for the corresponding week of last year. Classified according to causes, deaths numbered 2 under Other Fevers, 3 under Dysentery and Diarrhœa and 8 under All Other Causes. The reported mortality was very low.
